The Total Energy Company.

Offering Products and Services for both Residential and Commercial Customers.

INTRODUCING FARM & HOME OIL CO.

We know that when it comes to heating your home you have a choice of suppliers and service companies. That is why Farm & Home Oil Company works every day to earn our solid reputation for dependability and service. We aim to exceed your expectations and be the best supply and service company in the area.

Commitment to Customers

In business for more than 70 years, Farm & Home has extensive experience and is one of the most reliable, capable, and efficient energy suppliers serving residents and businesses across Central and Eastern Pennsylvania. We own over 40 million gallons of storage tanks and are supplied directly by several pipelines for heating oil, gasoline, off-road fuel, and on-road diesel fuel. We also maintain a total propane storage capacity of 720,000 gallons and have access to propane supply via rail car at our Macungie terminal. By storing these products throughout Bucks, Montgomery, and Lehigh Counties, Farm & Home Oil Company can optimize delivery efficiency. From products to people, we are securely positioned to handle your energy needs, even during times of peak demand. With every satisfied customer, we renew our commitment to help people live more comfortably and save money.

Commitment to Communities

Owned and operated by the Longacre family, Farm & Home has close ties and a solid relationship with the local community for decades. Throughout that time, Longacre family members have been actively involved in both the residential community and the business community because they believe it's important to participate in activities that help make the communities we serve better places to work, live, and raise families. Today, three generations of Longacres are associated with Farm & Home Oil Company and are dedicated to improving our communities and conserving natural resources.

*"We don't just sell products and services.
We find solutions to our customers'
comfort problems."
Rich Longacre
Second-generation CEO of Farm & Home*

THE DIFFERENCE IS THE PEOPLE

Heating oil, propane, and gasoline may be commodities, but it is the service, people, training, and decades of experience added to these commodities that make all the difference.

Farm & Home has over 200 employees, many have been with us for more than 20 years. All of us are committed to serving you – our neighbors, our customers – with the very best products and services for all your energy needs.

Always a Friendly Voice

When you call us for any reason, a caring person will answer the phone, listen to your concerns, and do whatever it takes to help you. For example, if you need new equipment, we don't just install the products we have available. We will evaluate your home, discuss your needs, and then recommend the equipment that is best for you.

Knowing emergencies can occur at any time, Farm & Home provides dependable service 24 hours a day, 7 days a week. No exceptions. We're here when you need us.

*"When we couldn't get our heater to work, the Farm & Home serviceman who came to our home was very courteous and helpful. We really appreciated his kindness."
Vincent & Betty Gallagher
Quakertown, PA*

Safety, Smarts & Service

Having the right attitude is important. Having the right knowledge is critical. In order to have both, all Farm & Home professionals receive continual training throughout their careers. To better serve you, our technical experts stay up to speed with changes in our industry. Our drivers are professionally trained with special attention to petroleum handling safety. No matter the job, each Farm & Home employee puts customer service first.

*"We lost our heat during the holiday season. I called Farm & Home and they were here within an hour to fix the problem. I feel safe and secure with Farm & Home and would recommend their services to anyone."
Margaret Dicandilo
Lansdale, PA*

IT'S YOUR CHOICE

Farm & Home offers a choice of heating fuels: oil and propane. Offering more than one product means we can tailor a service program to your specific needs. We install all equipment for oil or propane uses, including heat, hot water, swimming pools, cooking, and drying, and supply the fuel needed to operate equipment.

We want to be your total energy company. Whether you need heating oil to heat your home or diesel and gas to fuel your commercial trucks, we've got a solution and the service to back it up.

For Your Convenience

Making your life easier is one of our top priorities. That is why Farm & Home offers automatic and flexible payment plans to better fit your busy schedule and household energy budget.

Automatic Delivery – this plan keeps you fueled so you never have to think about whether it's time to call, or even make a call, for a refill. We adjust our delivery schedule to meet your needs, based on your usage patterns and lifestyle. Our customers enjoy this service at no extra charge.

Budget Billing – this plan allows you to pay for your fuel in 12 monthly payments. You won't have to juggle your budget at any time to accommodate erratic fuel usage. Customers also enjoy using Electronic Funds Transfer to send these payments easily and automatically.

Service Agreement – this protection provides regular maintenance to prevent problems and insurance against major, unexpected repair bills if something goes wrong.

Install & Maintain

We say we're full-service and we mean it. In addition to supplying customers with the highest quality heating oil and propane gas, Farm & Home technicians are trained to install and/or maintain any type of heating and cooling system including:

- Oil-fired and propane-fired heating systems
- Propane fireplace inserts
- Water heaters
- Central air conditioning
- Air cleaning, humidification, and ventilation systems
- Fuel oil, propane, and gasoline storage tanks (installation and removal)

"Everyone from Farm & Home has been fabulous. We had a very pleasant experience when they removed our old underground tank and installed a new, above-ground tank. We were so pleased we asked them to install a new central air system."
George & Lynn Ament
Furlong, PA

Something Extra

Anticipating your needs is an integral part of our business model. With this in mind, Farm & Home offers additional plans and options to make your life easier and give you peace of mind.

Automated Fueling Network – providing convenience beyond the home, this self-service offering lets you fill up your vehicle with quality gasoline or diesel fuel, on your schedule, day or night. Just visit one of the self-serve automated fueling stations we own and operate throughout our service area.

LOOK TO THE FUTURE...

OF ALTERNATIVE ENERGY

With an eye on the future and an understanding of our role in conserving natural resources, we are proudly offering alternatives to many traditional energy sources.

Cleaner oil from American soil.

meetbioheat[®]

For homes - Bioheat,[®] a blend of heating oil and soy-based biodiesel.

For trucks - biodiesel fuel, a blend of ultra low-sulfur diesel and soy-based biodiesel.

"We continue to provide customers with the quality fuel they've come to expect, but can also demonstrate our commitment to 'cleaner oil from American soil' by supplying energy that is readily available, renewable, and burns cleaner."

Rich Longacre

CEO of Farm & Home

Did you know that biofuel energy...

- is non-toxic and biodegradable
- is healthier for home heating systems
- allows diesel engines to produce lower emissions
- keeps air cleaner
- helps stop global warming
- supports domestic agriculture and American farmers
- extends U.S. supply of heating oil
- helps our country become energy independent

Together, we can do our part to help keep your home, our country, and this world beautiful for today and many tomorrows.

- Quality products at fair prices
- Friendly and knowledgeable customer service staff
- Fully trained and qualified service technicians
- Professionally trained drivers
- Worry-free automatic delivery
- Reliable delivery in any weather condition
- Affordable payment plans
- Quick response time
- Emphasis on safety
- 24-hour emergency service

Please call us today to discuss how we can provide the fuel to make your home inviting, enjoyable, and safe. If you have questions or suggestions, let us know – we want to be your total energy company.

Fueling the Future

Farm & Home Oil Company continues to progress and evolve in order to best serve you. Our leadership has set a course to successfully guide the company for years to come. With our priorities crystal clear, we strive to honor the family tradition of excellence in service – to customers, to community.

“We were very impressed by the service we received when we had a propane fireplace insert installed. Farm & Home was totally prepared, knowledgeable, and offered many helpful suggestions.”
Eric & Cathy Corup
Center Valley, PA
